Tailored solutions for your unique business

In-Depth Risk Analysis

Your company's operational dynamics are distinct, with varying degrees of risk exposure. We analyse your business operations, revenue streams, and existing insurances to identify your risk exposure. Our detailed gap analysis report equips you with the insights you need to make strategic decisions on your risk transfer to insurance needs.

Simplifying Claims for You

Navigating claims can be complex and stressful. For clients, we are here to support you with dedicated claims advocacy. For non-clients, we can provide the same level of service as your appointed consultants. We aim to simplify the claims process and ensure we represent your interests, so you can focus on what matters – your business.

Effortless Client Experience

Your needs are paramount. We prioritise a seamless and transparent service, providing clarity and reassurance throughout your partnership with us. Our straightforward fee structure covers all insurance advice and claims assistance throughout your policy.

Together, we can keep your business resilient.

Strength from strategic partnerships

We leverage our vast network of local and international providers to build appropriate insurance solutions for your business.

Clear Insurance is part of the Steadfast Group – Australasia's largest insurance broker network, giving you access to exclusive policy options and highly competitive pricing.

Clear Insurance is backed by the Group's \$13 billion in gross written premiums and robust market share, ensuring your company benefits from our access to unparalleled strength and security.

Industry expertise and partnerships

With over 30 years of proven experience in providing risk transfer and insurance advice to corporate entities, our approach to advising business leaders strides all industries, no matter the complexity.

While our specialty lies in the hospitality, medical and construction industries, our client portfolio extends across a broad range of industry sectors.

“Your business deserves robust, effective risk transfer solutions – sourced through a network with \$13bn in market leverage.”
